MERV means Minimum Efficiency Reporting Value (MERV) and is an industry standard that measures the overall effectiveness of air filters. As the MERV rating increases the finer the filtration becomes. With finer filtration, fewer airborne contaminants & dust particles are allowed to pass through the filter. Air Filters, Inc. supplies merv 8, merv 11 and merv 13 air filters.

Complies with Ultra-Low NOx regulations and meets energy efficiency requirements of ASHRAE 90.1b-1992. The ATI-310U tankless water heater uses up to 190,000 BTU/h of natural gas/liquid propane to deliver an endless supply of hot water for a 2.5 bath home in northern climates and up to a 3.5 bath home in southern climates (one shower head per bath). The ATI-310U is ENERGY STAR® qualified with ...

[HVAC Duct Construction Standards](#)

From ASHRAE, Shelly Miller and others we know that increasing ventilation indoors reduces risk of infection. The problem is doing this cost effectively. Reworking a building's HVAC system to bring in more outside air or filter more effectively can be cost prohibitive. However there is a cheap, fast solution which is also good enough to make a difference.
